

Seaton St Paul's C of E Junior School Curriculum Newsletter - Autumn Term Year 6

P.E

Year 6 will have their P.E sessions on a Monday and a Wednesday this half term. The focus of our P.E sessions will be outdoor adventure and gymnastics.

Design Technology - Eatwell

We will continue with our topic around takeaway foods. Children will research, design and make a healthy pizza and side dish. Afterwards, the pupils will evaluate their product.

Science - The Circulatory System

We continue with this project which teaches children about the transport role of the human circulatory system, its main parts and primary functions. They will learn about healthy lifestyle choices and the effects of harmful substances on the body.

Maths

In our Maths lessons this term, we will continue our work around the four operations. We also be improving our understanding of fractions and learn to divide and multiply them. We will also begin our work on converting units of measure.

English

Our English continues to be based around our class novel Windrush Child. We will be writing a persuasive speech in role. We will also be continuing to learn and recap Year 6 SPaG objectives.

Christian Value - Courage

PSHCE - Celebrating Differences

This will help children understand what makes each and every one of us unique!

History - Maafa

This project continues to teach children about Africa past and present with a particular focus on Benin. It looks at the development of the slave trade and Britain's role in the transatlantic Slave Trade.

MFL

As we continue our new Spanish lessons, this half term we will be learning about all things Animales!

Computing - Web Page Creation

This unit helps children to understand exactly what is needed in order to create a successful web page.

Art - Tints, Tones and Shades

This project teaches us about colour theory by studying the colour wheel and exploring mixing tints, shades and tones. We will also look at the features of significant landscape artists.

R.E— Advent

During this R.E unit, we will further our understanding around the themes of Advent and why it is a special time to Christians.

Geography— Our Changing World

This unit of work revises essential skills and covers the features of the Earth, time zones, lines of latitude and longitude and how to pinpoint places on a map. We will also analyse road safety data and take part in local fieldwork.

Homework Opportunities

PE - Can you create your own gymnastics routine to music?

History — Can you create a museum guide which details what you've understood about the slave trade?

Computing - Can you design and create a front page for your own website?
